VI.—VESSELS EMPLOYED IN THE FOREIGN TRADE	232
VII.—VESSELS EMPLOYED IN THE COASTING TRADE	236
VIII.—EXPORTS OF PIECE GOODS OF ARTIFICIAL SILK MIXED WITH (a) COTTON (b) WOOL, SHOWING PERCENTAGES OF ARTIFICIAL SILK CONTENT	238
INDEX—IMPORTS AND EXPORTS	243

(1) *Period covered by the Accounts.*—Under the provisions of the Law, the particulars in respect of imported goods from which the official trade statistics are compiled are allowed to be given by importers or their agents at any time within 14 working days after the arrival of the ship. Further extension of time is given within which to make any necessary amendments. Such particulars may also be accepted before a ship actually arrives. In the case of exported goods the information is required to be supplied within six days after the final clearance outwards of the exporting ship. It follows that the statistics published for a month do not precisely represent the imports and exports which occurred in that period. In general, the figures show the trade, as declared by importers and exporters on the documents received in the Statistical Office, Customs and Excise, London, during a month, inclusive of all amendments relating to former months received in that Office during the month.

(2) *Classification of Articles.*—The Tables are arranged throughout in accordance with the Import and Export List. The following classes of goods arriving in this country are not included in the import statistics: (a) Personal luggage, including parcels brought by passengers for private use, so long as such parcels do not contain dutiable goods. Dutiable goods contained in passengers' parcels are included in the statistics; (b) fresh fish and shell fish of British taking, landed from British ships arriving direct from the fishing grounds; (c) ships' stores, Military and Naval Stores on board Government vessels, bunkers (coal and oil), and ballast of no commercial value; (d) mats, sacks, cases, &c., used as packages of imported goods; (e) goods directly imported by Ambassadors and Ministers accredited to this Kingdom; (f) old vessels bought from owners abroad. The following classes of goods are not included in the export statistics: (a) personal luggage and effects; (b) ships' stores, Military and Naval Stores on board Government vessels, and ballast of no commercial value; (c) mats, sacks, cases, &c., used as the packages of exported goods; (d) old vessels sold to owners abroad.

(3) *Value.*—The value of the Imports represents the cost, insurance, and freight; or, when goods are consigned for sale, the latest sale value of such goods. The value of the Exports represents the cost and the charges of delivering the goods on board the ship, and is known as the "free on board" value. Both quantities and values are based on the declarations of importers and exporters as subsequently checked by the Customs officials. The values shown for Parcel Post in these Accounts are approximate only.

(4) *Arrangement under* —Imp
 from the countries whence consig
 The countries whence goods are assigned
 countries of actual origin of the goods, since goods produced in one
 country may be purchased by a firm in another country and thence
 despatched, after a longer or shorter interval, to the United Kingdom.
 In such a case the second country would be the country of consignment
 to which the goods would be credited in these Accounts. Exports are
 credited to the country to which the goods are consigned, i.e., the country
 of final destination as declared by exporters in their entries, whether that
 country possesses a sea-board or not.

(5) *Definition of Countries.*—Throughout these Accounts the term
 “United Kingdom” is used to include Great Britain, Northern Ireland
 and the Isle of Man.

In the tables of Imports and Exports—

British India includes the whole of India, except French and
 Portuguese Possessions.

British East Indies includes British India, Straits Settlements
 (with the Malay States and Labuan), and Ceylon.

British South Africa includes the Union of South Africa (i.e., Cape
 of Good Hope, Natal, Orange Free State, Transvaal, and
 South West Africa Protectorate) and Rhodesia, Bechuanaland
 Protectorate, Basutoland, and Swaziland.

British West Africa includes Gambia, Sierra Leone, Gold Coast
 (including British Togoland), and Nigeria (including British
 Cameroons).

British East Africa includes Zanzibar and Pemba, Kenya,
 Uganda Protectorate, Nyasaland Protectorate, and Tanganyika
 Territory.

(6) *Transit Trade.*—Goods in transit, whether on through Bill of
 Lading or otherwise, are included in the tables of Imports and of
 Exports of Imported Merchandise, except such goods as are removed
 under bond from the importing to the exporting ship at the same or
 another Port. Accounts of these Transshipments under Bond are given
 in the “Annual Statement of Trade.”

(7) *Exports.* — Exports of Imported Merchandise include not
 only goods in transit through the United Kingdom (unless tran-
 shipped under bond), but also all goods which have not had their
 value sensibly modified by any process of refining or manufacture,
 although they have remained for some time in the United Kingdom.
 Thus goods which have been merely sorted, repacked, or blended, are
 included in Exports of Imported Goods, but goods which have undergone

any other process are not included under the Head of Exports of the Produce or Manufacture of the United Kingdom, as are also all dutiable goods exported by Parcel Post.

(8) *Durable Goods*.—The Import Accounts of Durable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of Imports for the expired portion of the current year. The corresponding totals of Home Consumption Accounts include corrections arising from over-entries. The quantities "entered for home consumption" are the quantities delivered on payment of duty. In order to arrive at the quantities "retained for home consumption," the quantities exported on drawback, &c., are subsequently deducted.

(9) *Shipping*.—The Tables of the movements of shipping in the Foreign Trade which are included in these Accounts relate only to entrances and clearances "with cargo," that is to say, they include only those vessels which arrive at a port or ports in the United Kingdom for the purpose of discharging cargo from abroad or which depart from a port or ports in the United Kingdom after loading there cargo for discharge at a destination abroad. If cargo is unloaded from, or loaded on, a vessel at more than one port in the United Kingdom without an intervening call at a port abroad, the vessel is recorded as "entered" at one only of such ports of discharge or as "cleared" at one only of such ports of loading. The country from which a vessel is recorded as "entered" on an inward voyage is that of the most distant port at which cargo was loaded for discharge in the United Kingdom on that voyage, whether cargo from other countries is also loaded in the course of the voyage or not. Similarly a vessel is recorded as "cleared" to the country of the most distant port of discharge for cargo loaded on the vessel in the United Kingdom on that voyage.

Movements of vessels between ports in the United Kingdom for the purpose of completing the discharge of cargo from abroad, or of completing the loading of cargo for abroad, are not recorded as coastwise voyages.

The record of movements of shipping in the Coasting Trade which are included in these Accounts relate only to the arrivals of vessels for the purpose of discharging cargo taken on board at another port, or other ports in the United Kingdom, and the departures of vessels after loading cargo for discharge at another port, or other ports, in the United Kingdom. Any voyage which includes a call at a port abroad is not deemed to be a coastwise voyage. In the coasting trade, vessels are "entered with cargo" at every port of discharge and are "cleared with cargo" at every port of loading.

The arrivals of vessels at ports at which no cargo is discharged¹, and of departures of vessels from ports at which no cargo is loaded, are recorded as arrivals and departures "in ballast." Particulars of such arrivals and departures are excluded from the tables in these Accounts, but are published in the "Annual Statement of the Navigation and Shipping of the United Kingdom."

(10) *Annual Statements*.—Full particulars of the Import and Export trade in each Article and with each Foreign and British country are contained in the "Annual Statement of the Trade of the United Kingdom," of which all Volumes for 1924 have now been published. Preliminary information for the year 1925 is contained in the Accounts of Trade and Navigation for December, 1925. Detailed information as to Shipping is published in the "Annual Statement of the Navigation and Shipping of the United Kingdom," which is now available for 1924.

SUMMARY TABLE showing the VALUE of IMPORTS, EXPORTS of (a) UNITED KINGDOM PRODUCE AND MANUFACTURES (b) IMPORTED MERCHANDISE and TOTAL EXPORTS for each MONTH in the YEARS 1924 and 1925, and the completed MONTHS of the CURRENT YEAR, exclusive of BULLION and SPECIE.

SUMMARIE

EXPORTS OF PRODUCE AND MANUFACTURE (Value F.O.B.*)

	Page.	MONTH 1924.
I.—FOOD, DRINK AND TOBACCO—		£
A. Grain and Flour	78	579,848
B. Feeding-stuffs for Animals	78-79	188,934
C. Meat	79	107,378
D. Animals, Living, for Food	79	19,948
E. and F. Other Food and Drink	80-83	3,001,490
G. Tobacco	83	473,768
TOTAL, CLASS I.		4,370,375
II.—RAW MATERIALS AND ARTICLES MAINLY UNMANUFACTURED—		
A. Coal	84-93	5,732,629
B. Other Non-Metallic Mining and Quarry Products and the like	94	177,238
C. Iron Ore and Scrap	94	28,259
D. Non-Ferrous Metalliferous Ores and Scrap	94	80,647
E. Wood and Timber	94	63,581
F. Raw Cotton and Cotton Waste	95	101,821
G. Wool, Raw, and Waste, and Woollen Rags	95	825,622
H. Silk, Raw, Knobs and Noils	96	3,781
I. Other Textile Materials	96	24,708
J. Oil Seeds, Nuts, Oils, Fats, Resins and Gums	97	416,037
K. Hides and Skins, Undressed	98	119,030
L. Paper-making Materials	99	133,018
M. Rubber	99	10,004
N. Miscellaneous Raw Materials and Articles mainly Unmanufactured	99	98,527
TOTAL, CLASS II.		7,823,922
III.—ARTICLES WHOLLY OR MAINLY MANUFACTURED—		
A. Coke and Manufactured Fuel	100	540,796
B. Earthenware, Glass, Abrasives &c.	100-103	1,081,181
C. Iron and Steel and Manufactures thereof	103-113	5,807,432
D. Non-Ferrous Metals and Manufactures thereof	114-116	1,242,815
E. Cutlery, Hardware, Implements and In- struments	116-119	737,782
F. Electrical Goods and Apparatus	119	811,216
G. Machinery	120-123	3,464,379
H. Manufactures of Wood and Timber	123	168,855
I. Cotton Yarns and Manufactures	124-141	16,890,384
J. Woollen and Worsted Yarns and Manu- factures	144-150	6,376,505
K. Silk and Silk Manufactures	151-153	214,370
L. Manufactures of other Textile Materials	153-156	2,001,580
M. Apparel	157-159	2,868,135
N. Chemicals, Drugs, Dyes and Colours	160-162	2,015,404
O. Oils, Fats and Resins, Manufactured	162, 163	621,393
P. Leather and Manufactures thereof	163, 164	487,183
Q. Paper and Cardboard	164-166	766,819
R. Vehicles (Including Locomotives, Ships and Aircraft)	167-170	3,793,760
S. Rubber Manufactures	171	520,187
T. Miscellaneous Articles wholly or mainly Manufactured	171-173	2,634,417
TOTAL, CLASS III.		53,134,632
IV.—ANIMALS, NOT FOR FOOD	174-175	205,735
V.—PARCEL POST	175	753,610
TOTAL		66,288,294

* The value of the Exports represents the cost and the charges of delivery 'free on board' value.

Wheat Meal and Flour	10,617,945 78,441,000	10,447,255 73,385,686	9,650,170 73,129,413

¶ These quantities represent, in addition to the equivalent of the weight of flour, 28 per cent. of offal, &c., the result of the process of converting grain into flour.

Note.—The equivalents used for converting wheat, barley and oats from weight to measure are those set out in the Corn Returns Act, 1882, viz.:—40 lbs. to the bushel of wheat, 50 lbs. to the bushel of barley and 80 lbs. to the bushel of oats.

* Liable to Duty on and after 16th August, 1925. For imports prior to that date, see page 19.

Note.—The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the total of imports for the expired portion of the current year. The corresponding totals of the Home Consumption Accounts include corrections arising from over-entries.

† The corrected quantities and values of the Imports of Sugar are here given for 1924 and 1925.

‡ The quantities here shown are exclusive of the deliveries of Refined Sugar which has been produced from duty-paid Sugar returned to refineries to be again refined.

§ *Note*.—The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts, such corrections are embodied in the totals of Imports for the expired portion of the current year. The corresponding totals of the Home Consumption Accounts include corrections arising from over-entries.

* The quantities here shown are exclusive of the deliveries of Molasses and Invert Sugar, &c., which has been produced from duty-paid sugar returned to refiners to be again refined. In addition to the above, the following quantities were delivered free of duty for use in distilleries and as food for stock:—

Four Months ended 31st August { 1924 1925 1926		Imported.	Made in Bond.	Total.
		2,415,970	566,537	2,982,516
		2,230,767	677,480	2,917,247
		1,911,867	401,266	2,403,133

† For Imports of "Milk, Condensed, Unsweetened," see page 20.
‡ Chocolate Confectionery is included in "Cocoa Preparations," page 22.
§ The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of imports for the expired portion of the current year. The corresponding totals of the Home Consumption Accounts include corrections arising from over-entries.

Note.—The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of imports for the expired portion of the current year. The corresponding totals of the Home Consumption Accounts include corrections arising from over-entries.

COCOA, RAW "	788,000	727,000	536,000
COCOA PREPARATIONS "	4,000	2,000	3,000
COFFEE (Including Roasted or Ground) "	163,000	281,000	202,000
FRUIT, DRIED—			
Currants "	109,000	119,000	58,000
Raisins "	198,000	86,000	46,000
SPIRITS, Home-made Proof Gallons	143,080,000	150,639,000	151,628,000
SPIRITS, IMPORTED—			
Brandy "	1,880,000	1,649,000	1,486,000
Rum (Including Imitation Rum) "	7,642,000	7,278,000	6,725,000
All other Sorts Galls.	821,000	899,000	766,000
SUGAR, &c.—			
Refined in Bond Cwts.	768,000	696,000	1,023,000
Imported, Refined "	503,000	577,000	3,083,000
" Unrefined "	2,909,000	5,100,000	2,986,000
" Glucose "	22,000	71,000	60,000
" Molasses "	362,000	161,000	176,000
TEA Lbs.	128,499,000	165,129,000	156,850,000
TOBACCO—			
Imported, Unmanufactured "	345,629,000	338,589,000	362,021,000
" Manufactured and Snuff "	1,032,000	872,000	791,000
WINE—			
" in Casks Galls.	5,409,000	6,842,000	6,283,000
" in Bottles, viz.—			
Still "	156,000	149,000	169,000
Sparkling "	482,000	586,000	662,000
Total in Bottles "	638,000	735,000	831,000
" in Casks and Bottles—			
From France "	779,000	796,000	898,000
" Portugal "	3,055,000	4,226,000	3,480,000
" Spain "	1,388,000	1,597,000	1,509,000
" Other Countries "	825,000	968,000	1,227,000
TOTAL OF WINE "	6,047,000	7,577,000	7,114,000

Notes.—The above quantities are based partly upon estimates supplied by the Importers. All goods entered to be Warehoused up to and on the last working day of the Month are included as Stock. All goods entered for Home Consumption, Exportation, and Stores up to the latest returns are deemed to be deliveries out of Stock.

E. C. CUNNINGHAM,

Accountant and Comptroller-General.

INDEX—IMPORTS AND EXPORTS	243
-------------------------------------	-----

NOTES.

(1) *Period covered by the Accounts.*—Under the provisions of the Law, the particulars in respect of imported goods from which the official trade statistics are compiled are allowed to be given by importers or their agents at any time within 14 working days after the arrival of the ship. Further extension of time is given within which to make any necessary amendments. Such particulars may also be accepted before a ship actually arrives. In the case of exported goods the information is required to be supplied within six days after the final clearance outwards of the exporting ship. It follows that the statistics published for a month do not precisely represent the imports and exports which occurred in that period. In general, the figures show the trade, as declared by importers and exporters on the documents received in the Statistical Office, Customs and Excise, London, during a month, inclusive of all amendments relating to former months received in that Office during the month.

(2) *Classification of Articles.*—The Tables are arranged throughout in accordance with the Import and Export List. The following classes of goods arriving in this country are not included in the import statistics : (a) Personal luggage, including parcels brought by passengers for private use, so long as such parcels do not contain dutiable goods. Dutiable goods contained in passengers' parcels are included in the statistics ; (b) fresh fish and shell fish of British taking, landed from British ships arriving direct from the fishing grounds ; (c) ships' stores, Military and Naval Stores on board Government vessels, bunkers (coal and oil), and ballast of no commercial value ; (d) mats, sacks, cases, &c., used as packages of imported goods ; (e) goods directly imported by Ambassadors and Ministers accredited to this Kingdom ; (f) old vessels bought from owners abroad. The following classes of goods are not included in the export statistics : (a) personal luggage and effects ; (b) ships' stores, Military and Naval Stores on board Government vessels, and ballast of no commercial value ; (c) mats, sacks, cases, &c., used as the packages of exported goods ; (d) old vessels sold to owners abroad.

(3) *Value.*—The value of the Imports represents the cost, insurance, and freight ; or, when goods are consigned for sale, the latest sale value of such goods. The value of the Exports represents the cost and the charges of delivering the goods on board the ship, and is known as the " free on board " value. Both quantities and values are based on the declarations of importers and exporters as subsequently checked by the Customs officials. The values shown for Parcel Post in these Accounts are approximate only.

(4) *Arrangement under Countries.*—Imports are classified as received from the countries whence they were consigned to the United Kingdom. The countries whence goods are consigned are not in all cases the countries of actual origin of the goods, since goods produced in one country may be purchased by a firm in another country and thence despatched, after a longer or shorter interval, to the United Kingdom. In such a case the second country would be the country of consignment to which the goods would be credited in these Accounts. Exports are credited to the country to which the goods are consigned, *i.e.*, the country of final destination as declared by exporters in their entries, whether that country possesses a sea-board or not.

(5) *Definition of Countries.*—Throughout these Accounts the term “United Kingdom” is used to include Great Britain, Northern Ireland and the Isle of Man.

In the tables of Imports and Exports—

British India includes the whole of India, except French and Portuguese Possessions.

British East Indies includes British India, Straits Settlements (with the Malay States and Labuan), and Ceylon.

British South Africa includes the Union of South Africa (*i.e.*, Cape of Good Hope, Natal, Orange Free State, Transvaal, and South West Africa Protectorate) and Rhodesia, Bechuanaland Protectorate, Basutoland, and Swaziland.

British West Africa includes Gambia, Sierra Leone, Gold Coast (including British Togoland), and Nigeria (including British Cameroons).

British East Africa includes Zanzibar and Pemba, Kenya, Uganda Protectorate, Nyasaland Protectorate, and Tanganyika Territory.

(6) *Transit Trade.*—Goods in transit, whether on through Bill of Lading or otherwise, are included in the tables of Imports and of Exports of Imported Merchandise, except such goods as are removed under bond from the importing to the exporting ship at the same or another Port. Accounts of these Transshipments under Bond are given in the “Annual Statement of Trade.”

(7) *Exports.* — Exports of Imported Merchandise include not only goods in transit through the United Kingdom (unless transhipped under bond), but also all goods which have not had their value sensibly modified by any process of refining or manufacture, although they have remained for some time in the United Kingdom. Thus goods which have been merely sorted, repacked, or blended, are included in Exports of Imported Goods, but goods which have undergone

any other process are included under the head of Exports of the Produce or Manufacture of the United Kingdom, as are also all non-dutiable goods exported by Parcel Post.

(8) *Dutiable Goods*.—The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of Imports for the expired portion of the current year. The corresponding totals of Home Consumption Accounts include corrections arising from over-entries. The quantities “entered for home consumption” are the quantities delivered on payment of duty. In order to arrive at the quantities “retained for home consumption,” the quantities exported on drawback, &c., are subsequently deducted.

(9) *Shipping*.—The Tables of the movements of shipping in the Foreign Trade which are included in these Accounts relate only to entrances and clearances “with cargo,” that is to say, they include only those vessels which arrive at a port or ports in the United Kingdom for the purpose of discharging cargo from abroad or which depart from a port or ports in the United Kingdom after loading there cargo for discharge at a destination abroad. If cargo is unloaded from, or loaded on, a vessel at more than one port in the United Kingdom without an intervening call at a port abroad, the vessel is recorded as “entered” at one only of such ports of discharge or as “cleared” at one only of such ports of loading. The country from which a vessel is recorded as “entered” on an inward voyage is that of the most distant port at which cargo was loaded for discharge in the United Kingdom on that voyage, whether cargo from other countries is also loaded in the course of the voyage or not. Similarly a vessel is recorded as “cleared” to the country of the most distant port of discharge for cargo loaded on the vessel in the United Kingdom on that voyage.

Movements of vessels between ports in the United Kingdom for the purpose of completing the discharge of cargo from abroad, or of completing the loading of cargo for abroad, are not recorded as coastwise voyages.

The record of movements of shipping in the Coasting Trade which are included in these Accounts relate only to the arrivals of vessels for the purpose of discharging cargo taken on board at another port, or other ports in the United Kingdom, and the departures of vessels after loading cargo for discharge at another port, or other ports, in the United Kingdom. Any voyage which includes a call at a port abroad is not deemed to be a coastwise voyage. In the coasting trade, vessels are “entered with cargo” at every port of discharge and are “cleared with cargo” at every port of loading.

The arrivals of vessels at ports at which no cargo is discharged, and of departures of vessels from ports at which no cargo is loaded, are recorded as arrivals and departures "in ballast." Particulars of such arrivals and departures are excluded from the tables in these Accounts, but are published in the "Annual Statement of the Navigation and Shipping of the United Kingdom."

(10) *Annual Statements*.—Full particulars of the Import and Export trade in each Article and with each Foreign and British country are contained in the "Annual Statement of the Trade of the United Kingdom," of which all Volumes for 1924 have now been published. Preliminary information for the year 1925 is contained in the Accounts of Trade and Navigation for December, 1925. Detailed information as to Shipping is published in the "Annual Statement of the Navigation and Shipping of the United Kingdom," which is now available for 1924.

SUMMARY TABLE showing the VALUE of IMPORTS, EXPORTS of (a) UNITED KINGDOM PRODUCE and MANUFACTURES (b) IMPORTED MERCHANDISE and TOTAL EXPORTS for each MONTH in the YEARS 1924 and 1925, and the completed MONTHS of the CURRENT YEAR, exclusive of BULLION and SPECIE.

¶ These quantities represent, in addition to the equivalent of the weight of flour, 28 per cent. of offal, &c., the result of the process of converting grain into flour.

Note.—The equivalents used for converting wheat, barley and oats from weight to measure are those set out in the Corn Returns Acts, 1832, viz.:—60 lbs. to the bushel of wheat, 60 lbs. to the bushel of barley and 89 lbs. to the bushel of oats.

* Liable to duty on and after 16th August, 1925. For Imports prior to that date see page 19.

Note.—The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of Imports for the expired portion of the current year. The corresponding totals of the Home Consumption Accounts include corrections arising from over-entries.

	INDEX—IMPORTS AND EXPORTS	263

NOTES.

(1) *Period covered by the Accounts.*—Under the provisions of the Law, the particulars in respect of imported goods from which the official trade statistics are compiled are allowed to be given by importers or their agents at any time within 14 working days after the arrival of the ship. Further extension of time is given within which to make any necessary amendments. Such particulars may also be accepted before a ship actually arrives. In the case of exported goods the information is required to be supplied within six days after the final clearance outwards of the exporting ship. It follows that the statistics published for a month do not precisely represent the imports and exports which occurred in that period. In general, the figures show the trade, as declared by importers and exporters on the documents received in the Statistical Office, Customs and Excise, London, during a month, inclusive of all amendments relating to former months received in that Office during the month.

(2) *Classification of Articles.*—The Tables are arranged throughout in accordance with the Import and Export List. The following classes of goods arriving in this country are not included in the import statistics: (a) Personal luggage, including parcels brought by passengers for private use, so long as such parcels do not contain dutiable goods. Dutiable goods contained in passengers' parcels are included in the statistics; (b) fresh fish and shell fish of British taking, landed from British ships arriving direct from the fishing grounds; (c) ships' stores, Military and Naval Stores on board Government vessels, bunkers (coal and oil), and ballast of no commercial value; (d) mats, sacks, cases, &c., used as packages of imported goods; (e) goods directly imported by Ambassadors and Ministers accredited to this Kingdom; (f) old vessels bought from owners abroad. The following classes of goods are not included in the export statistics: (a) personal luggage and effects; (b) ships' stores, Military and Naval Stores on board Government vessels, and ballast of no commercial value; (c) mats, sacks, cases, &c., used as the packages of exported goods; (d) old vessels sold to owners abroad.

(3) *Value.*—The value of the Imports represents the cost, insurance, and freight; or, when goods are consigned for sale, the latest sale value of such goods. The value of the Exports represents the cost and the charges of delivering the goods on board the ship, and is known as the "free on board" value. Both quantities and values are based on the declarations of importers and exporters as subsequently checked by the Customs officials. The values shown for Parcel Post in these Accounts are approximate only.

(4) *Arrangement under Countries.*—Imports are classified as received from the countries whence they were consigned to the United Kingdom. The countries whence goods are consigned are not in all cases the countries of actual origin of the goods, since goods produced in one country may be purchased by a firm in another country and thence despatched, after a longer or shorter interval, to the United Kingdom. In such a case the second country would be the country of consignment to which the goods would be credited in these Accounts. Exports are credited to the country to which the goods are consigned, *i.e.*, the country of final destination as declared by exporters in their entries, whether that country possesses a sea-board or not.

(5) *Definition of Countries.*—Throughout these Accounts the term “United Kingdom” is used to include Great Britain, Northern Ireland and the Isle of Man.

In the tables of Imports and Exports—

British India includes the whole of India, except French and Portuguese Possessions.

British East Indies includes British India, Straits Settlements (with the Malay States and Labuan), and Ceylon.

British South Africa includes the Union of South Africa (*i.e.*, Cape of Good Hope, Natal, Orange Free State, Transvaal, and South West Africa Protectorate) and Rhodesia, Bechuanaland Protectorate, Basutoland, and Swaziland.

British West Africa includes Gambia, Sierra Leone, Gold Coast (including British Togoland), and Nigeria (including British Cameroons).

British East Africa includes Zanzibar and Pemba, Kenya, Uganda Protectorate, Nyasaland Protectorate, and Tanganyika Territory.

(6) *Transit Trade.*—Goods in transit, whether on through Bill of Lading or otherwise, are included in the tables of Imports and of Exports of Imported Merchandise, except such goods as are removed under bond from the importing to the exporting ship at the same or another Port. Accounts of these Transshipments under Bond are given in the “Annual Statement of Trade.”

(7) *Exports.* — Exports of Imported Merchandise include not only goods in transit through the United Kingdom (unless transhipped under bond), but also all goods which have not had their value sensibly modified by any process of refining or manufacture, although they have remained for some time in the United Kingdom. Thus goods which have been merely sorted, repacked, or blended, are included in Exports of Imported Goods, but goods which have undergone

any other process are included under the head of Exports of the Produce or Manufacture of the United Kingdom, as are also all non-dutiable goods exported by Parcel Post.

(8) *Dutiable Goods*.—The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of Imports for the expired portion of the current year. The corresponding totals of Home Consumption Accounts include corrections arising from over-entries. The quantities “entered for home consumption” are the quantities delivered on payment of duty. In order to arrive at the quantities “retained for home consumption,” the quantities exported on drawback, &c., are subsequently deducted.

(9) *Shipping*.—The Tables of the movements of shipping in the Foreign Trade which are included in these Accounts relate only to entrances and clearances “with cargo,” that is to say, they include only those vessels which arrive at a port or ports in the United Kingdom for the purpose of discharging cargo from abroad or which depart from a port or ports in the United Kingdom after loading there cargo for discharge at a destination abroad. If cargo is unloaded from, or loaded on, a vessel at more than one port in the United Kingdom without an intervening call at a port abroad, the vessel is recorded as “entered” at one only of such ports of discharge or as “cleared” at one only of such ports of loading. The country from which a vessel is recorded as “entered” on an inward voyage is that of the most distant port at which cargo was loaded for discharge in the United Kingdom on that voyage, whether cargo from other countries is also loaded in the course of the voyage or not. Similarly a vessel is recorded as “cleared” to the country of the most distant port of discharge for cargo loaded on the vessel in the United Kingdom on that voyage.

Movements of vessels between ports in the United Kingdom for the purpose of completing the discharge of cargo from abroad, or of completing the loading of cargo for abroad, are not recorded as coastwise voyages.

The record of movements of shipping in the Coasting Trade which are included in these Accounts relate only to the arrivals of vessels for the purpose of discharging cargo taken on board at another port, or other ports in the United Kingdom, and the departures of vessels after loading cargo for discharge at another port, or other ports, in the United Kingdom. Any voyage which includes a call at a port abroad is not deemed to be a coastwise voyage. In the coasting trade, vessels are “entered with cargo” at every port of discharge and are “cleared with cargo” at every port of loading.

The arrivals of vessels at ports at which no cargo is discharged, and of departures of vessels from ports at which no cargo is loaded, are recorded as arrivals and departures "in ballast." Particulars of such arrivals and departures are excluded from the tables in these Accounts, but are published in the "Annual Statement of the Navigation and Shipping of the United Kingdom."

(10) *Annual Statements*.—Full particulars of the Import and Export trade in each Article and with each Foreign and British country are contained in the "Annual Statement of the Trade of the United Kingdom," of which Volume I for 1925 has now been published. Further preliminary information for the year 1925 is contained in the Accounts of Trade and Navigation for December, 1925. Detailed information as to Shipping is published in the "Annual Statement of the Navigation and Shipping of the United Kingdom," which is now available for 1924.

SUMMARY TABLE showing the VALUE of IMPORTS, EXPORTS of (a) UNITED KINGDOM PRODUCE and MANUFACTURES (b) IMPORTED MERCHANDISE and TOTAL EXPORTS for each MONTH in the YEARS 1924 and 1925, and the completed MONTHS of the CURRENT YEAR, exclusive of BULLION and SPECIE.

[illegible]

QUANTITIES OF CORN AND WHEAT FLOUR IMPORTED IN THE TWO MONTHS FROM					
	1st September, 1924, to 31st October, 1924.	1st September, 1925, to 31st October, 1925.	1st September, 1926, to 31st October, 1926.		
	<i>Cwts.</i>	<i>Cwts.</i>	<i>Cwts.</i>		<i>Qrs.</i>
Wheat	20,190,420	4,718,198	15,868,593	=	3,660,672
Barley	5,215,843	1,480,486	794,109		
Oats	1,156,146	415,097	740,193		
Maize	8,195,727	1,912,887	6,760,873		1,577,537
Peas	325,452	72,923	240,045		58,343
Beans, not fresh	505,689	117,094	77,794		18,135
Wheat Meal and Flour	1,821,421	1,194,489	1,893,195		461,646

¶ These quantities represent, in addition to the equivalent of the weight of flour, 28 per cent. of oil, &c., the result of the process of converting grain into flour.

Note.—The equivalents used for converting wheat, barley and oats from weight to measure are those set out in the Corn Returns Act, 1882, viz.:—60 li is to the bushel of wheat, 50 lbs. to the bushel of barley and 39 lbs. to the bushel of oats.

* Liable to duty on and after 16th August, 1925. For Imports prior to that date, see page 19.

Note.—The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of Imports for the expired portion of the current year. The corresponding totals of the Home Consumption Accounts include corrections arising from over-entries.

* The quantities here shown are exclusive of the deliveries of Molasses and Invert Sugar, &c., which has been produced from duty-paid sugar returned to refineries to be again refined. In addition to the above, the following quantities were delivered free of duty for use in distilleries and as food for stock:—

TEN MONTHS ended 31st OCTOBER,	1924 ..	1923 ..	1922
Imported.	2,691,974	2,662,044	2,588,387
Made in Bond.	769,681	846,630	677,761
Total.	3,461,655	3,508,674	3,266,148

* For imports of "Milk, Condensed, Unsweetened," see page 20.
 † Chocolate Confectionery is included in "Cocoa Preparations," page 22.
 ‡ The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of Imports for the expired portion of the current year. The corresponding totals of the Home Consumption Accounts include corrections arising from over-entries.

Note.—The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of Imports for the expired portion of the current year. The corresponding totals of the Home Consumption Accounts include corrections arising from over-entries.

INDEX—IMPORTS AND EXPORTS	243

NOTES.

(1) *Period covered by the Accounts.*—Under the provisions of the Law, the particulars in respect of imported goods from which the official trade statistics are compiled are allowed to be given by importers or their agents at any time within 14 working days after the arrival of the ship. Further extension of time is given within which to make any necessary amendments. Such particulars may also be accepted before a ship actually arrives. In the case of exported goods the information is required to be supplied within six days after the final clearance outwards of the exporting ship. It follows that the statistics published for a month do not precisely represent the imports and exports which occurred in that period. In general, the figures show the trade, as declared by importers and exporters on the documents received in the Statistical Office, Customs and Excise, London, during a month, inclusive of all amendments relating to former months received in that Office during the month.

(2) *Classification of Articles.*—The Tables are arranged throughout in accordance with the Import and Export List. The following classes of goods arriving in this country are not included in the import statistics: (a) Personal luggage, including parcels brought by passengers for private use, so long as such parcels do not contain dutiable goods. Dutiable goods contained in passengers' parcels are included in the statistics; (b) fresh fish and shell fish of British taking, landed from British ships arriving direct from the fishing grounds; (c) ships' stores, Military and Naval Stores on board Government vessels, bunkers (coal and oil), and ballast of no commercial value; (d) mats, sacks, cases, &c., used as packages of imported goods; (e) goods directly imported by Ambassadors and Ministers accredited to this Kingdom; (f) old vessels bought from owners abroad. The following classes of goods are not included in the export statistics: (a) personal luggage and effects; (b) ships' stores, Military and Naval Stores on board Government vessels, and ballast of no commercial value; (c) mats, sacks, cases, &c., used as the packages of exported goods; (d) old vessels sold to owners abroad.

(3) *Value.*—The value of the Imports represents the cost, insurance, and freight; or, when goods are consigned for sale, the latest sale value of such goods. The value of the Exports represents the cost and the charges of delivering the goods on board the ship, and is known as the 'free on board' value. Both quantities and values are based on the declarations of importers and exporters as subsequently checked by the Customs officials. The values shown for Parcel Post in these Accounts are approximate only.

(4) *Arrangement under Countries.*—Imports are classified as received from the countries whence they were consigned to the United Kingdom. The countries whence goods are consigned are not in all cases the countries of actual origin of the goods, since goods produced in one country may be purchased by a firm in another country and thence despatched, after a longer or shorter interval, to the United Kingdom. In such a case the second country would be the country of consignment to which the goods would be credited in these Accounts. Exports are credited to the country to which the goods are consigned, i.e., the country of final destination as declared by exporters in their entries, whether that country possesses a sea-board or not.

(5) *Definition of Countries.*—Throughout these Accounts the term "United Kingdom" is used to include Great Britain, Northern Ireland and the Isle of Man.

In the tables of Imports and Exports—

British India includes the whole of India, except French and Portuguese Possessions.

British East Indies includes British India, Straits Settlements (with the Malay States and Labuan), and Ceylon.

British South Africa includes the Union of South Africa (i.e., Cape of Good Hope, Natal, Orange Free State, Transvaal, and South West Africa Protectorate) and Rhodesia, Bechuanaland Protectorate, Basutoland, and Swaziland.

British West Africa includes Gambia, Sierra Leone, Gold Coast (including British Togoland), and Nigeria (including British Cameroons).

British East Africa includes Zanzibar and Pemba, Kenya, Uganda Protectorate, Nyasaland Protectorate, and Tanganyika Territory.

(6) *Transit Trade.*—Goods in transit, whether on through Bill of Lading or otherwise, are included in the tables of Imports and of Exports of Imported Merchandise, except such goods as are removed under bond from the importing to the exporting ship at the same or another Port. Accounts of these Transshipments under Bond are given in the "Annual Statement of Trade."

(7) *Exports.* — Exports of Imported Merchandise include not only goods in transit through the United Kingdom (unless transhipped under bond), but also all goods which have not had their value sensibly modified by any process of refining or manufacture, although they have remained for some time in the United Kingdom. Thus goods which have been merely sorted, repacked, or blended, are included in Exports of Imported Goods, but goods which have undergone

any other process are included under the head of Exports of the Produce or Manufacture of the United Kingdom, as are also all non dutiable goods exported by Parcel Post.

(8) *Dutiable Goods*.—The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of Imports for the expired portion of the current year. The corresponding totals of Home Consumption Accounts include corrections arising from over-entries. The quantities “entered for home consumption” are the quantities delivered on payment of duty. In order to arrive at the quantities “retained for home consumption,” the quantities exported on drawback, &c., are subsequently deducted.

(9) *Shipping*.—The Tables of the movements of shipping in the Foreign Trade which are included in these Accounts relate only to entrances and clearances “with cargo,” that is to say, they include only those vessels which arrive at a port or ports in the United Kingdom for the purpose of discharging cargo from abroad or which depart from a port or ports in the United Kingdom after loading there cargo for discharge at a destination abroad. If cargo is unloaded from, or loaded on, a vessel at more than one port in the United Kingdom without an intervening call at a port abroad, the vessel is recorded as “entered” at one only of such ports of discharge or as “cleared” at one only of such ports of loading. The country from which a vessel is recorded as “entered” on an inward voyage is that of the most distant port at which cargo was loaded for discharge in the United Kingdom on that voyage, whether cargo from other countries is also loaded in the course of the voyage or not. Similarly a vessel is recorded as “cleared” to the country of the most distant port of discharge for cargo loaded on the vessel in the United Kingdom on that voyage.

Movements of vessels between ports in the United Kingdom for the purpose of completing the discharge of cargo from abroad, or of completing the loading of cargo for abroad, are not recorded as coastwise voyages.

The record of movements of shipping in the Coasting Trade which are included in these Accounts relate only to the arrivals of vessels for the purpose of discharging cargo taken on board at another port, or other ports in the United Kingdom, and the departures of vessels after loading cargo for discharge at another port, or other ports, in the United Kingdom. Any voyage which includes a call at a port abroad is not deemed to be a coastwise voyage. In the coasting trade, vessels are “entered with cargo” at every port of discharge and are “cleared with cargo” at every port of loading.

The arrivals of vessels at ports at which no cargo is discharged, and of departures of vessels from ports at which no cargo is loaded, are recorded as arrivals and departures "in ballast." Particulars of such arrivals and departures are excluded from the tables in these Accounts, but are published in the "Annual Statement of the Navigation and Shipping of the United Kingdom."

(10) *Annual Statements*.--Full particulars of the Import and Export trade in each Article and with each Foreign and British country are contained in the "Annual Statement of the Trade of the United Kingdom," of which Volumes I to III have now been published and the remaining Volume IV will be available shortly. Further preliminary information for the year 1925 is contained in the Accounts of Trade and Navigation for December, 1925. Detailed information as to Shipping is published in the "Annual Statement of the Navigation and Shipping of the United Kingdom," which is now available for 1925.

SUMMARY TABLE showing the VALUE of IMPORTS, EXPORTS of (a) UNITED KINGDOM PRODUCE and MANUFACTURES (b) IMPORTED MERCHANDISE and TOTAL EXPORTS for each MONTH in the YEARS 1921 and 1925, and the completed MONTHS of the CURRENT YEAR, exclusive of BULLION and SPECIE.

Malts	12,573,167	2,938,740	10,836,083	2,528,692	9,237,421	2,155,898
Peas	484,451	107,656	366,166	81,148	318,843	77,078
Beans, not fresh	765,031	175,707	666,167	154,037	168,617	38,177
Wheat Meal and Flour	2,987,139	706,054	1,978,838	464,514	2,997,669	706,223

¶ These quantities represent in addition to the equivalent of the weight of flour, 28 per cent. of offal, &c., the result of the process of converting grain into flour.

Note.—The equivalents used for converting wheat, barley and oats from weight to measure are those set out in the Corn Returns Act, 1862, viz.:—60 lbs. to the bushel of wheat, 50 lbs. to the bushel of barley, and 30 lbs. to the bushel of oats.

* Liable to duty on and after 16th August, 1925. For Imports prior to that date see page 19.

Note.—The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of imports for the expired portion of the current year. The corresponding totals of the Home Consumption Accounts include corrections arising from over-entries.

Note.—The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of Imports for the expired portion of the current year. The corresponding totals of the Home Consumption Accounts include corrections arising from over-entries.

VII.—VESSELS EMPLOYED IN THE COASTING TRADE	236
VIII.—CUSTOMS DUTIES—TOTAL REVENUE	238
IX.—CUSTOMS DUTIES—GROSS AMOUNT UPON IMPORTED ARTICLES		239
X.—EXPORTS OF PIECE GOODS OF ARTIFICIAL SILK MIXED WITH (a) COTTON (b) WOOL, SHOWING PERCENTAGES OF ARTIFICIAL SILK CONTENT	240
INDEX—IMPORTS AND EXPORTS	245

NOTES.

(1) *Period covered by the Accounts.*—Under the provisions of the Law, the particulars in respect of imported goods from which the official trade statistics are compiled are allowed to be given by importers or their agents at any time within 14 working days after the arrival of the ship. Further extension of time is given within which to make any necessary amendments. Such particulars may also be accepted before a ship actually arrives. In the case of exported goods the information is required to be supplied within six days after the final clearance outwards of the exporting ship. It follows that the statistics published for a month do not precisely represent the imports and exports which occurred in that period. In general, the figures show the trade, as declared by importers and exporters on the documents received in the Statistical Office, Customs and Excise, London, during a month, inclusive of all amendments relating to former months received in that Office during the month.

(2) *Classification of Articles.*—The Tables are arranged throughout in accordance with the Import and Export List. The following classes of goods arriving in this country are not included in the import statistics: (a) Personal luggage, including parcels brought by passengers for private use, so long as such parcels do not contain dutiable goods. Dutiable goods contained in passengers' parcels are included in the statistics; (b) fresh fish and shell fish of British taking, landed from British ships arriving direct from the fishing grounds; (c) ships' stores, Military and Naval Stores on board Government vessels, bunkers (coal and oil), and ballast of no commercial value; (d) mats, sacks, cases, &c., used as packages of imported goods; (e) goods directly imported by Ambassadors and Ministers accredited to this Kingdom; (f) old vessels bought from owners abroad. The following classes of goods are not included in the export statistics: (a) personal luggage and effects; (b) ships' stores, Military and Naval Stores on board Government vessels, and ballast of no commercial value; (c) mats, sacks, cases, &c., used as the packages of exported goods; (d) old vessels sold to owners abroad.

(3) *Value.*—The value of the Imports represents the cost, insurance, and freight; or, when goods are consigned for sale, the latest sale value of such goods. The value of the Exports represents the cost and the charges of delivering the goods on board the ship, and is known as the "free on board" value. Both quantities and values are based on the declarations of importers and exporters as subsequently checked by the Customs officials. The values shown for Parcel Post in these Accounts are approximate only.

(4) *Arrangement under Countries.*—Imports are classified as received from the countries whence they were consigned to the United Kingdom. The countries whence goods are consigned are not in all cases the countries of actual origin of the goods, since goods produced in one country may be purchased by a firm in another country and thence despatched, after a longer or shorter interval, to the United Kingdom. In such a case the second country would be the country of consignment to which the goods would be credited in these Accounts. Exports are credited to the country to which the goods are consigned, *i.e.*, the country of final destination as declared by exporters in their entries, whether that country possesses a sea-board or not.

(5) *Definition of Countries.*—Throughout these Accounts the term “United Kingdom” is used to include Great Britain, Northern Ireland and the Isle of Man.

In the tables of Imports and Exports—

British India includes the whole of India, except French and Portuguese Possessions.

British East Indies includes British India, Straits Settlements (with the Malay States and Labuan), and Ceylon.

British South Africa includes the Union of South Africa (*i.e.*, Cape of Good Hope, Natal, Orange Free State, Transvaal, and South West Africa Protectorate) and Rhodesia, Bechuanaland Protectorate, Basutoland, and Swaziland.

British West Africa includes Gambia, Sierra Leone, Gold Coast (including British Togoland), and Nigeria (including British Cameroons).

British East Africa includes Zanzibar and Pemba, Kenya, Uganda Protectorate, Nyasaland Protectorate, and Tanganyika Territory.

(6) *Transit Trade.*—Goods in transit, whether on through Bill of Lading or otherwise, are included in the tables of Imports and of Exports of Imported Merchandise, except such goods as are removed under bond from the importing to the exporting ship at the same or another Port. Accounts of these Transhipments under Bond are given in the “Annual Statement of Trade.”

(7) *Exports.* — Exports of Imported Merchandise include not only goods in transit through the United Kingdom (unless transhipped under bond), but also all goods which have not had their value sensibly modified by any process of refining or manufacture, although they have remained for some time in the United Kingdom. Thus goods which have been merely sorted, repacked, or blended, are included in Exports of Imported Goods, but goods which have undergone

any other process are included under the head of Exports of the Produce or Manufacture of the United Kingdom, as are also all non-dutiable goods exported by Parcel Post.

(8) *Dutiable Goods*.—The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of Imports for the expired portion of the current year. The corresponding totals of Home Consumption Accounts include corrections arising from over-entries. The quantities “entered for home consumption” are the quantities delivered on payment of duty. In order to arrive at the quantities “retained for home consumption,” the quantities exported on drawback, &c., are subsequently deducted.

(9) *Shipping*.—The Tables of the movements of shipping in the Foreign Trade which are included in these Accounts relate only to entrances and clearances “with cargo,” that is to say, they include only those vessels which arrive at a port or ports in the United Kingdom for the purpose of discharging cargo from abroad or which depart from a port or ports in the United Kingdom after loading there cargo for discharge at a destination abroad. If cargo is unloaded from, or loaded on, a vessel at more than one port in the United Kingdom without an intervening call at a port abroad, the vessel is recorded as “entered” at one only of such ports of discharge or as “cleared” at one only of such ports of loading. The country from which a vessel is recorded as “entered” on an inward voyage is that of the most distant port at which cargo was loaded for discharge in the United Kingdom on that voyage, whether cargo from other countries is also loaded in the course of the voyage or not. Similarly a vessel is recorded as “cleared” to the country of the most distant port of discharge for cargo loaded on the vessel in the United Kingdom on that voyage.

Movements of vessels between ports in the United Kingdom for the purpose of completing the discharge of cargo from abroad, or of completing the loading of cargo for abroad, are not recorded as coastwise voyages.

The record of movements of shipping in the Coasting Trade which are included in these Accounts relate only to the arrivals of vessels for the purpose of discharging cargo taken on board at another port, or other ports in the United Kingdom, and the departures of vessels after loading cargo for discharge at another port, or other ports, in the United Kingdom. Any voyage which includes a call at a port abroad is not deemed to be a coastwise voyage. In the coasting trade, vessels are “entered with cargo” at every port of discharge and are “cleared with cargo” at every port of loading.

The arrivals of vessels at ports at which no cargo is discharged, and of departures of vessels from ports at which no cargo is loaded, are recorded as arrivals and departures "in ballast." Particulars of such arrivals and departures are excluded from the tables in these Accounts, but are published in the "Annual Statement of the Navigation and Shipping of the United Kingdom."

(10) *Annual Statements*.—Full particulars of the Import and Export trade in each Article and with each Foreign and British country are contained in the "Annual Statement of the Trade of the United Kingdom," of which all Volumes for the year 1925 have now been published. Preliminary information for the year 1926 is contained in this month's Accounts of Trade and Navigation. Detailed information as to Shipping is published in the "Annual Statement of the Navigation and Shipping of the United Kingdom," which is now available for 1925.

SUMMARY TABLE showing the VALUE of IMPORTS, EXPORTS of (a) UNITED KINGDOM PRODUCE and MANUFACTURES (b) IMPORTED MERCHANDISE and TOTAL EXPORTS for each MONTH in the YEARS 1924 and 1925, and the completed MONTHS of the CURRENT YEAR, exclusive of BULLION and SPECIE.

			Orz. = 1,027,559

¶ These quantities represent, in addition to the equivalent of the weight of flour, 28 per cent. of offal, &c., the result of the process of converting grain into flour.
 Note: The equivalents used for converting wheat, barley and oats from weight to measure are those set out in the Corn Return Act, 1862, viz.:—40 lbs. to the bushel of wheat, 50 lbs. to the bushel of barley and 39 lbs. to the bushel of oats.

*Liable to duty on and after 16th August, 1925. For Imports prior to that date, see page 19.

Note.—The Import Accounts of Durable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of Imports for the expired portion of the current year. The corresponding totals of the Home Consumption Accounts include corrections arising from over-entries.

* The corrected quantities and values of the Imports of Sugar are here given for 1924 and 1925:

The quantities here shown are exclusive of the deliveries of Refined Sugar which has been produced from duty-paid Sugar returned to refineries to be again refined.

Note.—The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts, such corrections are embodied in the totals of Imports for the expired portion of the current year. The corresponding totals of the Home Consumption Accounts include corrections arising from over-entries.

I.—IMPORTS AND CONSUMPTION.

Note.—The Import Accounts of Dutiable Goods are compiled from estimated quantities supplied to the Customs by Importers, and are subject to correction, both as to quantities and as to value, when an official account has been taken by the Department. In subsequent Monthly Accounts such corrections are embodied in the totals of Imports for the expired portion of the current year. The corresponding totals of the Home Consumption Accounts include corrections arising from over-entries.
